Calling Community to Support our Disability Providers at the *NDIS Make It Work Rally*

The National Disability Insurance Scheme (NDIS) promises a brighter future for thousands of Australians. But that promise is falling short.

Complicated planning processes, lots of red tape and inadequate funding in participants plans are causing problems. Providers and participants are calling on both major political parties to deliver on the promise.

Join disability organisations at the NDIS Day of Action Rally in the Illawarra and Shoalhaven.
